Dear Hiring Manager,

I am writing to express my interest in the Software engineering Intern position at Affirm. As a lower-senior majoring in computer science at CUNY Brooklyn College, I am eagerly seeking a software engineering internship opportunity to apply my skills and further develop my expertise in the field.

I am particularly drawn to Affirm because of its commitment to providing interns with hands-on experience and meaningful projects. The opportunity to collaborate with mentors and managers to develop and ship projects that contribute to the team is exactly the kind of experience I am seeking to enhance my skills and knowledge in software engineering.

I am fluent in Java and have intermediate proficiency in C++, which I believe aligns well with the languages used at Affirm. My coursework and projects have provided me with a solid foundation in software development principles, and I am eager to leverage my skills to tackle challenges and deliver results.

Thank you for considering my application. I am enthusiastic about the opportunity to contribute to the innovative work being done at Affirm and am available for an interview at your earliest convenience. I can be reached via email at kurbanovamaryam1@gmail.com.

Sincerely,

Maryam Kurbanova
